PROFESSIONAL EXPERIENCE

Assistant System Engineer
Tata Consultancy Services / 2018 - Present

As a BI Engineer, I am responsible for developing the reports based on client requirements with PL-SQL, Jenkins, Octopus and GitHub in an HCM based project. Also, I work on Looker which is a data analytics tool. I also do automations with Python for data wrangling.

Internship
Tata Consultancy Services / 2017 - 2017

During this internship, I along with my team developed a web application for monitoring energy generated by renewable resources. We worked on Java, PostgreSQL and Spring.

Final Year Project
BVM Engineering College / 2017 - 2018

As a team, we developed a platform for organizing and managing various events in college like TechFests. For this, I mainly worked on C#, XAML, JSON and REST API.
